Tasmanian waterways, their power, beauty and lifelines. **This program is fully subscribed** but follow us on TMAG's Facebook page for photos and posts from classrooms across Tasmania.

Fluid Landscapes

How do artists represent 'place' through the genre of landscape art? Focussing on *The Derwent*, this schools program makes connections to art works across the TMAG collection. Insights will be gained into various material approaches to artmaking, including photography and new media. Students will be given tools to discuss depictions of place and asked to consider how sense of place is expressed through their own art works.

Separate sessions for grades 5 and 6 as well as grades 7 to 12.

Bookings essential through the TMAG website.
