

The **Friends of the Tasmanian Museum & Art Gallery**
invite you to a special lecture by Sir Guy Green:

The culture of Antarctica — a Tasmanian and global perspective

As our part in the Antarctic Centennial Year celebrations we are honoured to host a talk by Sir Guy Green, who is not only Chairman of Trustees of the TMAG but also Honorary Antarctic Ambassador for Tasmania.

In his lecture Sir Guy will look at how Antarctica has developed a distinct culture over the years, a culture which he suggests is unique in the history of human societies. He will trace the development of that culture and Tasmania's globally significant role in it.

6pm Wednesday 21 March 2012

Royal Society Room, entry Dunn Street

Members \$20 Non members \$25 including refreshments

Please complete and return the enclosed Reply Form not later than
Wednesday 14 March.
